

# NEXT GENERATIONS

## What is FBN International Internship Program?

**FBN International Internship Program offers Next Generation members internships to gain experience in another family business, in another country.**

It's a great way to learn before you take up a position in your own family business. You can decide either to deepen your knowledge in a similar business field to your own, or explore new areas such as manufacturing, private banking, insurance or retail.

This program connects NxGs with internship opportunities in FBN companies all over the world.

Where would you like your next internship to be? Our new platform currently has more than 30 available internship opportunities in places like India, Germany, Turkey, Asia, Ukraine and the Middle East, among others.

## How will it help me in my career?

As a next generation member you should make sure that you have a good exposure to businesses other than your own family business.

In order to prepare for future leadership roles, experts and senior owners strongly recommend gaining external awareness by travelling and learning from other family business.

Each offer is unique, and therefore the length and conditions for each offer vary. You could well be having an internship for a couple of weeks in India or a couple of months in Poland.

## One thing we know for sure, is that this will be a great opportunity to:

- Build long-lasting relationships with other family-business owning families across borders.
- Experience the dynamics between other family members within their company, and see how they work together and learn from them.
- Get new work experience from a company in a similar situation to yours.
- Broaden your network of friends around the world.

## How can I become an Intern?

Visit [www.fbninternship.com](http://www.fbninternship.com) to

- ▶ Create an account
- ▶ See all available offers and check out their duration, language, country, description, accommodation, salary etc.

# FAMILY BUSINESS OWNERS

## What is FBN International Internship Program?

FBN International Internship Program offers families in business the opportunity to host Next Generation members from another family business, and another country as interns.

This program connects NxGs with internship opportunities in FBN companies all over the world.

In order to ensure that the program continues to flourish, our community is dependent on members like you that are willing to seize the opportunity, to become hosts and offering internships.

## What Will I Benefit As A Host?

Internships are a great way for hosts to gain a useful project-resource whilst also “giving back” by providing experience to someone from another business-owning family. In many cases, you get to see your own family through fresh eyes and a bond is formed between families that can last for years.

## Here's what you can benefit from this program as a host:

- Gain a useful project-resource and a fresh perspective from a young pair of eyes.
- Encourage your own Next Generation by allowing them to interact with a young person in a similar ownership situation.
- Build a deep connection with another business-owning family.
- Shape the future of a potential leader of another family business.

## How can I become a Host?

Visit [www.fbninternship.com](http://www.fbninternship.com) to

- ▶ Create an account
- ▶ See all available offers and check out their duration, language, country, description, accommodation, salary etc.
